

Protect Everyone. Everywhere there's code.

CODESECURE & AUTOMOTIVE

- In vehicle infotainment
 - Android-OS and drivers
 - Java
- Advanced driver assist
- Automated driving
- Sensor fusion
- Telematics
- Under-the-hood
 - Steering
 - Brake
 - Engine control
- Digital cockpit
- Body control

SAST SOLUTION ENGINEERED FOR EMBEDDED AND PRODUCT SECURITY

- Secure: deepest findings protect your code
- Compatibility: more than 50 supported compilers
- Compliance: MISRA, AutoSAR, ISO-26262, SEI CERT C/C++, MITRE, CWE, JPL, OWASP
- Speed: embedded in CI/CD pipelines and IDEs for happy developers and faster delivery

BSCA SOFTWARE SUPPLY CHAIN SECURITY PLATFORM

- Scan: post-production applications, packages, and containers
- SBOMs: SBOMs in SPDX, CycloneDX and VEX
- Secure: remove critical open-source vulnerabilities
- File format: broad language, OS, and platform support
